## Conference workshops

Euro-Par 2014 will feature a series of satellite workshops on August 25-26. Proposals for workshops covering a specific theme and lasting between half a day and a full day are encouraged and solicited until February 27, 2014.

20 YEARS

Euro-Par 2014 / Porto

European Conference on Parallel Computing

August 25-29, 2014
Porto . Portugal

Topics

1. Support Tools and Environments
2. Performance Prediction and Evaluation
3. Scheduling and Load Balancing
4. High Performance Architectures and Compilers
5. Parallel and Distributed Data Management
6. Grid Cluster and Cloud Computing
7. Green High Performance Computing
8. Distributed Systems and Algorithms
9. Parallel and Distributed Programming
10. Parallel Numerical Algorithms
11. Multicore and Manycore Programming
12. Theory and Algorithms for Parallel Computation
13. High Performance Networks and Communication
14. High-Performance and Scientific Applications
15. GPU and Accelerator Computing
